ALABAMA COLLEGE SUMMER SCHOOL**GENERAL INFORMATION**

The Summer School was established at the College in May, 1915, by authority of the Board of Trustees, and held its first session in 1916. A six to twelve week session has been held every summer since that date.

The 1937 summer session will be eleven weeks in length, beginning June 10 and ending August 25.

The first term will consist of six weeks, beginning June 10 and ending July 21, during which classes will be conducted five days per week, except on Saturday, June 12, when regular classes will be held.

The second term will consist of five weeks, beginning July 22 and ending August 25, during which classes will be conducted six days per week.

Each term is a separate unit, on which full credit may be secured for work completed.

In accordance with the aim of the Summer School to serve public education in the State to the fullest possible extent, a special effort is made to meet the needs of those wishing to obtain, renew, or extend certificates; of high school teachers and others wishing credit toward degrees; of public school teachers wishing to study progressive methods of teaching any grade of school work; of students enrolled in the regular session at this and other colleges who wish to make up work; of those desiring special work in home economics, music, art, speech, physical education, social service, and other special fields; of those desiring to teach in junior and senior high schools or to secure additional training in that field; of those wishing a thorough course in public school music or to prepare for the State examination in piano or public school music; of those wishing general physical education courses preparatory to teaching that subject or to coaching athletics; of those interested in repertory classes in violin, piano and organ; of those desiring high school credit.

CURRICULA

Courses are offered in art, biology, chemistry and physics, education, English, history, home economics, mathematics, modern languages, music, physical education, psychology, sociology, social work, and speech.

By attending the entire eleven weeks, a student may complete a year's work in such fundamental courses as biology, chemistry, English, history, mathematics, and modern languages.

In the other departments many of the courses are so organized that a full year's work may be completed in either six or eleven weeks.

SPECIAL FEATURES**PROGRESSIVE EDUCATION DEMONSTRATION SCHOOL AND
SUMMER PROGRAM FOR ELEMENTARY AND
HIGH SCHOOL TEACHERS****June 10-July 21**

The Progressive Education Association will again sponsor during the first six weeks of the 1937 Alabama College Summer School a Demonstration School and Summer Program. In addition to the program for elementary teachers, which has been conducted for the past five summers at the College, the Demonstration High School and program for high school teachers, begun two summers ago, will be repeated. The continuation of the enlarged program was made possible by an educational grant which contemplated that the summer program at the College would serve Alabama and neighboring states.

Dates for Demonstration School and Summer Program

The summer program of Progressive Education will coincide with the first term of Summer School, June 10 to July 21, 1937. The Demonstration Schools will be open for observation June 14 to July 21.

Reception Given Progressive Education Work for Past Five Summers

The reception given the progressive education work at the College during past summers has amply demonstrated the worth of this program. Approximately five hundred teachers and supervisors have attended the full six-weeks program. Approximately four thousand teachers, supervisors, superintendents, and other school workers have observed the work and have taken part in the conferences for periods ranging from a few days to three weeks.

Nature of Work to be Offered this Summer

The work this summer is designed for both elementary and high school teachers. The program will consist of:

1. An Elementary School demonstrating the practical applications of progressive education principles and theory and including activity programs, large units of work, pupil initiative, individual needs, creative thinking, and character development. The Elementary Demonstration School will be the center for all phases of progressive education work for elementary teachers.
2. A High School demonstrating the practical applications of progressive education principles and theory. The features characterizing the work of the Elementary School will be shown also in the High School, which will be the center for all phases of the progressive education work for high school teachers.

3. College credit courses in progressive education.
4. A two-weeks non-credit short course of observation and intensive study designed especially for administrators, supervisors, and teachers who are not interested in credit and who cannot attend the six-weeks courses.
5. Joint Curriculum and Progressive Education Conference, July 1-2.

College Credit Work in Progressive Education

1. An Integrated Education Course.....*Credit, 6 semester hours.*
Students desiring to devote their entire time to education work may enroll in this course, directed by Dr. Alice V. Keliher. Demonstration school teachers and education teachers will assist. Each student in the course will choose two or three major interests for concentrated work. One short general meeting each day, and seminars, study groups, conferences, laboratory work, and observation in the demonstration school, as needed, will constitute the day's work. Credit for this course may be distributed in accordance with the amount of time devoted to the several interests.

The several interests which may be pursued in this course are:

- A. Principles of elementary education.
 - B. Principles of secondary education.
 - C. Directed observation in the lower elementary grades, in the upper elementary grades, or in the high school grades.
 - D. Art as it functions in a progressive school.
 - E. Music as it functions in a progressive school.
 - F. Physical education as it functions in a progressive school.
 - G. Methods of teaching the several subjects in a progressive elementary school.
 - H. Methods of teaching English, social science, and science in junior and senior high school.
 - I. Principles of Education.
 - J. Curriculum laboratory.
2. Other Courses in Progressive Education.
Students who desire to devote only a part of their time to the Progressive Education Program may register for progressive education courses listed under Education. Credit, 2 or 3 semester hours.

The Progressive Education Summer Program should appeal to all teachers, administrators, and students of education interested in the new education. It should appeal to the following classes of students:

- A. Those who attend summer school for the progressive education alone. A full term's work carrying six semester hours of credit may be taken.
- B. Those who desire to take one or two courses in progressive education and one or two courses in other fields.
- C. Those not interested in college credit but who wish to spend two weeks in observation and study of the new education.
- D. Those teachers who are interested in modifying their teaching to conform to the philosophy underlying the Alabama Curriculum Revision Program. The work in the Demonstration Schools will demonstrate the type of work contemplated in the Core Curriculum.

Cost of Six Weeks' Courses

Those attending for six weeks and taking six semester hours of credit will pay approximately \$50.00 for room, board, laundry, tuition, library fee, medical fee, and other fixed charges. The cost is the same for all students rooming in the dormitories and taking six semester hours of work.

Pupils Eligible for Demonstration Schools

A limited number of pupils of the town of Montevallo can be accepted in the Demonstration Elementary and High Schools. No fees will be charged for elementary or junior high school pupils. Senior high pupils who do not attend this school regularly will pay a registration fee of \$3.00 each and a tuition fee of \$4.00 for each one-half unit of work. Senior high school girls may secure room and board in the College dormitories. Other Demonstration School pupils must make other rooming arrangements. Children cannot be accommodated in the College dormitories.

Pupils not living in Montevallo who desire to attend the Demonstration Schools should apply to the Director of the Summer School as early as possible.

WORK ON STATE CURRICULUM REVISION PROGRAM

The College is cooperating with the State Department of Education in its elementary and high school curriculum revision program. This summer four curriculum courses will be offered:

- 1. Orientation in Curriculum Making.
- 2. Techniques of Curriculum Making.
- 3. Laboratory in Curriculum Making.
- 4. A one-week Curriculum Problems Short Course.

A specialist in curriculum revision will direct this work during the summer session.

The Curriculum Laboratory will be conducted in close cooperation with the Progressive Education Program. The development of large units of work to be taught in the Demonstration School will be part of the work of the Curriculum Laboratory.

The Curriculum Laboratory will develop guidance materials to be used by the teachers of the State in the curriculum revision program which is to extend over a period of several years.

NON-CREDIT SHORT COURSES

Four non-credit short courses will be offered during the 1937 Summer School for those school people who, because of graduate standing or for other reasons, are not interested in undergraduate credit and who are not able to spend six weeks in study. The two-weeks Progressive Education Short Course and the one-week Curriculum Problems Short Course are proposed as a substitute for short periods of observation in the Demonstration Schools by visitors.

The cost of a one-week short course will be \$7.75. This includes college fees and living expenses for five days at the college. The cost of a two-weeks short course will be \$18.00. This includes college fees and living expenses for twelve days at the college. In either case the student must furnish towels and bed linens. When the college does not furnish board and lodging, a matriculation fee of \$1.50 must be paid for the one-week course and \$3.00 for the two-weeks course.

Two-Weeks Coaching High School Dramatics Course—June 10-21

This course is designed for those high school teachers who coach plays and other speech and dramatic productions. It will include work in dramatic productions, contest preparation, interpretation, prose and poetry analysis, and choral speaking. Bibliographies and source helps will be developed.

Two-Weeks Progressive Education Course—June 21-July 2

The work during these two weeks will consist of observation in the Demonstration Schools, visiting regularly organized Progressive Education Courses and the Curriculum Laboratory, and work in a special class organized for those attending the Short Course.

One-Week Curriculum Problems Course—June 28-July 2

The work during this week will be directed towards observation of teaching such as is contemplated in the Alabama Core Curriculum, work in a special class dealing with the building of big units of school work, work in the Curriculum Laboratory, and attendance upon the Joint Curriculum and Progressive Education Conference, July 1-2.

One-Week Directing High School News Writing Course—July 5-10

This course is designed for the teacher without newspaper training who desires practical instruction in news methods. It is an intensive

course in high school news writing and the supervision of school newspapers. Lecture, conference, demonstration.

MISCELLANEOUS FEATURES

Alabama Writers' Conclave—June 15-18

The annual Alabama Writers' Conclave will be held at the College June 15-18. The programs may be attended by Summer School students, and frequently lecturers at the meetings are available also for special addresses to the student body.

Joint Curriculum and Progressive Education Conference—July 1-2

This conference, culmination of the one-week Curriculum Problems course, will deal with the Alabama Curriculum Revision Program. Among those participating will be Dr. Henry Harap of the Society for Curriculum Study and editor of the Curriculum Journal, Dr. Alice V. Keliher, and representatives of the State Department of Education.

Career Conference for High School Girls—July 7, 8, 9

The fourth annual Career Conference for young women enrolled in high schools of the state will be held at the College July 7, 8, 9. Outstanding guidance specialists will conduct the general meetings and hold personal conferences on the problem of choosing a career, and diagnostic tests will be given to assist in discovering individual aptitudes. Official attendance is limited to representatives drawn from the upper twenty-five per cent of the graduating classes.

School of Instruction for Vocational Home Economics Teachers, July 26-August 14

The purpose of this special three weeks' course for Alabama teachers of vocational home economics is to give specific aid in organizing the year's program, in setting up standards, and in applying modern methods to home economics instruction. For more complete information, see announcement of the School of Home Economics on page 27.

ENTERTAINMENT FEATURES

Among the recreational and entertainment features planned on the campus during the summer session are:

Music and speech recitals by faculty members; plays and other stage performances by students; addresses by visiting lecturers; athletic contests which include baseball, tennis, pingpong, aerial darts, and shuffle board; hikes and camp suppers; evening play hours under direction of a playground supervisor; reception to Summer School students by the faculty.

Reduced Railroad Rates

The Southeastern Passenger Association has in effect reduced round-trip fares with a six month time limit. Because of such reduced round-trip fares, no special rate for summer school is made.

EQUIPMENT

The entire equipment of the campus is available for use of Summer School students. This includes dormitories, dining halls, library, auditoriums, administration building, music building, elementary and high school buildings, laundry, home management house, infirmary, gymnasium, swimming pool, athletic fields, and tennis courts.

The library will be open every day of the Summer School session, excepting Sundays, on the following schedule: 7:30 A.M. to 9:00 P.M. from Mondays throughs Fridays; 8:30 A.M. to 5:00 P.M. on Saturdays.

College students may purchase text books at the supply store in Reynolds Hall, where writing materials are also available. High school students should secure the state-adopted text books from some local depository.

Each student must furnish a pillow, linen, and blankets or comforts. (Only single or three-quarter beds are used.)

COLLEGE AND HIGH SCHOOL CREDIT

College and high school students will have the privilege of working to remove conditions or to secure advanced standing. Courses satisfactorily completed in the Summer School will be credited in the regular session provided they form part of the regular curriculum.

For further information regarding high school courses, see pages 37 and 38.

REGISTRATION

Registration for the first term will be held Thursday, June 10, classes beginning the following morning at 7:30 o'clock. It will be possible to register later, but those expecting to register after Monday, June 14, should communicate with the Director of the Summer School as to credit work allowed late registrants.

Registration for the second term will be held Thursday, July 22, classes beginning the following morning at 7:30 o'clock.

The advance room reservation fee of \$2.00 will be refunded to a student who is unable to attend, provided the Director of the Summer School is notified by June 1. The Application For Admission blank is on the last page of this bulletin.

Regular Summer School students must have the approval of the President of the College or the Director of the Summer School before they can secure room and board in the town of Montevallo instead of at the College.

INTRODUCTION OF NEW COURSES AND ELIMINATION OF ANNOUNCED COURSES

The right is reserved to introduce new courses for which there is adequate demand and to eliminate courses for which the enrollment is insufficient.

TEACHERS' CERTIFICATES

Requirements for the issuance, renewal, or reinstatement of most of the several types of Alabama teachers' certificates may be met in full or in part by work completed in summer school. Those interested in securing a certificate through summer school work at Alabama College may secure full information from the summer school director. Those interested in reinstating a certificate are requested to bring their old ones with them.

Work at Alabama College does not lead to the reinstatement of Class E certificates.

Art S150. **Art in Home Economics.** A study of the structural elements of art in relation to the home. Original problems, reading and discussion to develop appreciation and understanding rather than skill. Credit, 3 semester hours.

Art S201. **Painting.** A beginning study of color and form as used in painting. Progressive problems planned to develop the power of self expression. Credit, 2 semester hours.

Art S300.1. **The Teaching of Art.** A study of the structural elements of art as a foundation for understanding the theory and methods of teaching art in the elementary school. Credit, 2 semester hours.

Art S350.1. **Methods of Teaching Art.** Required of all students specializing in the teaching of art and preparing to teach in the elementary schools. Prerequisite: Art 300.1 or the equivalent. Credit, 2 hours for students pursuing the Bachelor of Arts degree with training in elementary education; 3 hours for students with a major in art.

Arts S341. **Modeling and Pottery.** The principles of art as applied to shapes in the round. Work with clay, building up forms, modeling, etc. Credit, 2 or 3 semester hours.

Second Term

Art S112. **Art Structure.** Continuation of Art S111. Credit, 3 semester hours.

Art S202. **Painting.** Continuation of Art S201. Credit, 2 semester hours.

Art S342. **Modeling and Pottery.** Continuation of Art S341. Credit, 2 or 3 semester hours.

BIOLOGY

First Term

Biology S101. **Survey Course in the Biological Sciences.** A course primarily for students pursuing the A.B. degree who do not plan further work in biology. Brief consideration of a few representative forms of the plant and animal phyla as to structure, function, and their relationship to each other and to man. Three lectures and four two-hour laboratory-demonstration periods a week. Credit, 3 semester hours.

Biology S201. **General Biology.** Brief consideration of a few representative forms of the four phyla of the plant kingdom; the cell, cell division, and functions of cells; the kind, structure, and uses of the root, stem, leaves, buds, fruits, and seeds; a few animal forms representative of the invertebrate phyla, namely: Amoeba, Paramecium, Euglena, Hydra, Obelia, Gonionemus, Planaria, Ascaris, Earthworm, and an Arthropod. Three lectures and four two-hour laboratory-demonstration periods a week. Credit, 3 semester hours.

Biology S300. **Bacteriology.** A study of the morphology, physiology, and cultivation of bacteria, yeast, and molds. Special consideration is given the relation of micro-organisms to the preservation, preparation, and handling of foods; their relation to water and milk supply and sewage disposal; the organisms that cause disease and that are occasionally found in various foods, water, and milk. The course is adapted to needs of students taking home economics and of those desiring to become acquainted with the fundamental principles of bacteriology and sanitation. One lecture and three two-hour laboratory periods a week. Course is continuous and must be taken both terms. Credit, 3 semester hours.

Biology S350. **Field Biology.** A course designed for teachers who are preparing to teach in elementary schools. Those who will teach biology in high school will be greatly benefited also by the information on outdoor life, and the practice in finding, assembling and using this information in teaching. A study of plants and animals in the field, with emphasis on study of birds, insects, local flora, and wild life in general. Studies in nature are demonstrated by assigned projects. Two lectures and three two-hour laboratory periods a week. Credit, 2 semester hours.

Second Term

Biology S102. **Survey Course in the Biological Sciences.** A continuation of Biology S101. Emphasis on human physiology and hygiene, heredity, eugenics, and evolution. Credit, 3 semester hours.

Biology S202. **General Biology.** A study of the frog and man as representative of the vertebrates, with special emphasis on the human body. Some consideration is given genetics, evolution, practical aspects of biology, and the makers of biology. Three lectures and four two-hour laboratory periods a week. Credit, 3 semester hours.

Biology S300. **Bacteriology.** See same course in first term.

EDUCATION

First Term

Education S302. **Psychology of Secondary Education.** Discussion of mental processes of high school students in studying, with emphasis on the work of learning rather than of teaching. Consideration of maturity of the high school pupil; psychological distinction between the elementary and the high school pupil; psychology of mathematics, English, foreign

languages, fine arts, practical arts, natural sciences, social sciences, physical education, and administration. The purpose is to acquaint the prospective teacher with methods applied to subjects other than her own, thus decreasing the danger of narrow formalism in teaching. Credit, 3 semester hours.

Education S311 or S321. **Methods of Teaching Reading in the Elementary Grades.** In Education S311 the emphasis is placed upon work in the lower elementary grades, and in Education S321 the emphasis is placed upon work in the upper elementary grades. Either Education S311 or S321 required of all students taking the four-year elementary curriculum. Credit, 2 semester hours.

Education S312 or S322. **Methods of Teaching Social Science in the Elementary Grades.** In Education S312 the emphasis is placed upon work in the lower elementary grades, and in Education S322 the emphasis is placed upon work in the upper elementary grades. Either Education S312 or S322 required of all students taking the four-year elementary curriculum. Credit, 2 semester hours.

Education S350.2 **Methods of Teaching English.** Required of all students pursuing the Bachelor of Arts degree with training in secondary education and with a major or a minor in English. Credit, 3 semester hours.

Education S350.4. **Methods of Teaching History.** Required of all students pursuing the Bachelor of Arts degree with training in secondary education and a major or a minor in history. Credit, 3 semester hours.

Education S350.8. **Methods of Teaching Science.** Required of students with a major or a minor in science who are preparing to teach. Credit, 3 semester hours.

Education S352. **Orientation in Curriculum Making.** A first course taking up the basic principles underlying the curriculum, the need for curriculum changes, and discussion of the curriculum on the different school levels. Credit, 2 semester hours.

Education S362. **Techniques in Curriculum Construction.** A second course which, assuming a knowledge of the principles underlying the curriculum, includes a study of techniques in obtaining the objectives set up. Credit, 2 semester hours.

Education S370. **Directed Observation in the Elementary Grades.** Observation in the Training School. The work is organized on the activity basis advocated by the proponents of progressive education. Credit, 2 semester hours.

Education S381. **A First Course in Progressive Education in the Elementary Grades.** Credit, 2 semester hours.

Education S382. **A Second Course in Progressive Education in the Elementary Grades.** For students who have had the equivalent of the first course of this type. Credit, 2 semester hours.

Education S391. **A First Course in Progressive Education in the High School.** Credit, 2 semester hours.

Education S410. **Extra-Curricular Activities.** Special attention is given values of extra-curricular activities in high school as they affect attitudes. Credit, 2 semester hours.

Education S421 or S431. **Methods of Teaching Language and Spelling in the Elementary Grades.** In Education S421 the emphasis is placed upon work in the lower elementary grades, and in Education S431 the emphasis is placed upon work in the upper elementary grades. Either Education S421 or S431 required of all students taking the four-year elementary curriculum. Credit, 2 semester hours.

Education S430. **Directed Observation in High School.** Observation in the Training School and discussion of the more common high school subjects. Arranged for students with majors in the A.B. secondary curriculum. The work is organized on activity basis advocated by the proponents of progressive education. Credit, 2 semester hours.

Education S442. **Laboratory Course in Curriculum Construction.** A course for advanced students only. Designed for individual interests, with practical work in curriculum construction and in building curriculum practices. Credit, 2 semester hours.

Education S460. **Tests and Measurements in Secondary Education.** A course designed to give an understanding of the significance of modern testing procedures, and to furnish actual experience in administering tests and evaluating their results. Both old and new types of tests and examinations are studied critically. Also study of theory of testing, including elementary statistical procedures and their application to classroom use. Practice in preparing and giving tests, and in scoring papers. Open to seniors. Credit, 2 semester hours.

Education S490. **Philosophy of Education.** A summarization of the problems of teaching. An objective is the formulation of a definite philosophy of education by each student. Required of all students in the A.B. curriculum for secondary and elementary education. Credit, 2 semester hours.

Integrated Course in Progressive Education. Students desiring to take all of their work in the Progressive Education Program may enroll for six semester hours under the supervision of Dr. Keliher. The credit for this course may be distributed in accordance with the amount of time devoted to the several interests. Students interested in either elementary or secondary education may enter the course. Credit, 6 semester hours.

Second Term

Education S300. **School Management.** General classroom problems of the elementary teacher, including discipline, school records, and school hygiene. Credit, 2 semester hours.

Education S301. **Principles of High School Teaching.** Problems applicable to all high school teachers, such as discipline, class management, examinations, and teachers' reports. Required of all applicants for the college secondary class B certificate, and for special certificates to teach in high school. Open to all juniors. Credit, 3 semester hours.

Education S422. **Public Education in the United States.** A discussion of the development of the American school system, its beginning and organization. Required of all students in the elementary curriculum. Credit, 2 semester hours.

Education S432. **Test Construction.** A course based on recognition of the need for teachers trained in the technique of making the greater part of their own class tests rather than depending largely on standardized tests. Tests prepared by teachers and criteria for desirable tests are examined critically in the light of modern test construction methods. The student selects from her major field a textbook now in use in the Alabama high schools and prepares class tests based on its content. Credit, 2 semester hours.

Education S472. **School Administration.** A course adapted to needs of students preparing for school attendance work. The relation of the county superintendent and county supervisor to the school attendance officer is discussed. Credit, 2 semester hours.

Education S481. **Elementary School Administration.** Open to a limited number of students with special talent for this type of work. This course is of particular value to prospective elementary school principals and supervisors. Prerequisite: senior standing in the A.B. elementary course. Credit, 2 semester hours.

ENGLISH**First Term**

English S101. **Fundamentals of Composition.** Drill in the mechanics and practice in the fundamental forms of composition, both oral and written. Required in all curricula. Credit, 4 semester hours.

English S200. **Types of Poetry.** Credit, 3 semester hours.

English S210. **Types of Prose Fiction.** Credit, 3 semester hours.

English S310. **Literature for Children.** A study of the types of literature and the best examples of each type available for use in the school and home. Required in the A.B. elementary curriculum. Credit, 3 semester hours.

English S321. **Southern Writers.** A survey of the literature produced in the South, with special study of selected problems. Credit, 2 semester hours.

English S350.2. **Methods of Teaching High School English.** A study of the special problems of the high school teacher of English, including materials and methods. Prerequisite: Sophomore English. Credit, 3 semester hours.

MUSIC

With the extension of the Progressive Education Demonstration School to the high school, the study of music is now possible on all levels. Many music teachers who are not interested in credit and full-time courses will profit in observing the work.

The courses indicated here are offered in the first term of the Summer School. Those interested in music study during the second term should consult the Director of the School of Music before July 1.

Instrumental and vocal ensemble work will be given increased attention in the 1937 Summer School. Credit courses for full-time students are offered, but participation in the work is possible for shorter periods.

The summer music work aims to serve several widely divergent fields of music. Organ, piano, violin, and voice as well as School Music Methods, Wind and String Pedagogy, and Music Education are offered.

Applied Music

Repertory Classes

The courses in Applied Music are divided into two types, one serving established musicians who wish to add to their repertory or to re-study and re-interpret familiar works. To permit full consideration of more extended compositions, two one-hour private lessons a week are assigned this group of courses. One may register for part of the course if unable to remain the entire six weeks.

The second group of Applied Music courses is for students approaching the study of the literature of the instrument or voice for the first time and working for the formation of adequate technique. These courses also serve those who do not wish exclusive study of an instrument, and may be taken for less than full credit.

The work in the above mentioned courses will be offered by:

Harrison D. LeBaron	Organ
Mieczislaw Ziolkowski	Piano
York Kildea	Violin
Katherine Farrah	Voice

Public School Music

The School is equipped with the essential instruments for becoming conversant with the needs of the player of any important band or orches-

tral instrument. A course in instrumental and choral conducting is also offered for the benefit of the beginner.

The Applied Music study in this field may be done with one lesson a week if desired. Lessons in orchestral instruments may be offered as a combination of one private and one class lesson if a sufficient number is interested.

The usual courses in School Music will be offered by:

Katherine Farrah	Methods
York Kildea	Band and Orchestral Pedagogy and Conducting.

Music Education at the Piano

This course, designed for teachers of piano, will consider primarily the needs of the pupil. It will stress a thorough understanding of the aims of musical education. A study will be made of the underlying psychology of musical listening and performance, including their possible aims and a philosophy of musicianship. The application of these principles of the mental processes of the student is studied together with the development of proper attitudes.

Music Fees

The total expense of a course, including the fee for practice and the credit hour fee, is as follows:

Applied Music:

12 private hour lessons and 12 lecture or ensemble classes	\$35.00
12 private half-hour lessons	24.00
Music Education at the Piano	6.00
Harmony	6.00
Sight Singing and Dictation	3.00
Analysis	6.00
Liturgical Music	3.00
Composition	6.00
School Music Methods	6.00
Instrumental Pedagogy	6.00
Conducting	3.00

Description of Courses

The theory courses offered are from beginning harmony through composition. As far as possible the work under this heading will be directed to meet the immediate needs of the students. Work in courses not outlined may be pursued if possible to arrange the instruction.

DESCRIPTION OF COURSES

First Term

Music S101. **Harmony.** An effort to connect fundamental concepts with the essential intuitive grasp. A survey of the various approaches to musical understanding. Credit, 2 semester hours.

Music S101. **Sight Singing and Dictation.** Elementary theory; its perception and reproduction in sound, and its perception and recording. Scales, modes, intervals and rhythm. Credit, 1 semester hour.

Music S102. **Harmony.** A continuation of Harmony S101. Credit 2 semester hours.

Music S102. **Sight Singing and Dictation.** A continuation of Sight Singing and Dictation S101. Credit, 1 semester hour.

Music S120. **Music Education at the Piano.** As far as practical, conducted by discussion method. The building of musicianship in the student through piano study. Credit, 2 semester hours.

Music S201. **School Music for Grade Teachers.** Appreciation, simplified presentation of musical essentials, sight reading, child voice, materials, value of music and its place in school curriculum. Credit, 2 semester hours.

Music S251. **Structural Analysis.** Homophonic and contrapuntal forms, with consideration of the structural detail of composition. Prerequisite: a course in harmony. Credit, 2 semester hours.

Music S252. **Harmonic Analysis.** Analytical study of the harmony of Wagner, Franck, and a contemporary composer. Prerequisite: a course in harmony. Credit, 2 semester hours.

Music S301. **Elementary School Music.** Methods, materials, observation; the child voice, rote song, appreciation, creative music. Credit, 2 semester hours.

Practical experience in playing instruments of each type. Students should bring own instruments when possible. Two double periods a week. Credit, 2 semester hours.

Music S302. **String Instrument Pedagogy.** Preparation for conducting school orchestras; procedure for class teaching; survey of materials for class teaching; principles of holding, fingering and playing instruments. practical experience in playing instruments of each type. Students should bring their own instruments when possible. Two double periods a week. Credit, 2 semester hours.

Music S401. **Conducting and Instrumental Ensemble.** A course in the essentials of conducting, technique of the baton, orchestral repertoire, interpretation, and practical experience in conducting. Credit, 2 semester hours.

Music S451. **High School Music.** Methods, materials, appreciation, theory and observation. This course is designed for those with a major in school music. Credit, 2 semester hours.

PHYSICAL EDUCATION

First Term

Physical Education S152. **Beginning Swimming.** Credit, 1 semester hour.

Physical Education S252. **Intermediate Swimming.** Credit, 1 semester hour.

Physical Education S340. **Recreational Leadership.** A brief survey of the field of recreational leadership, including methods and practice in planning large parties suitable for recreation centers and churches; materials which could be included in the leadership of such clubs for adolescent girls as Camp Fire Girls, Girl Reserves, Girl Scouts, and 4-H Club Girls; hiking, handicraft, nature lore, and cooking out-of-doors. Credit, 2 semester hours.

Physical Education S352. **Advanced Swimming.** Life saving may be included, if desired. Credit, 1 semester hour.

Physical Education S350.7. **Methods and Materials for Elementary Schools.** Activities, materials, and methods in physical education as adapted to unit teaching in the elementary school; and lesson planning, directed observation in the training school, and study of the State program in physical education. Credit, 2 semester hours.

Physical Education S350.7. **Methods and Materials for Secondary Schools.** A study of the state point system for high school girls with emphasis on material, organization, record keeping and methods. Credit, 2 semester hours.

Physical Education S110, S210, S310, S410. **General Activities.** A course in tennis which will be arranged to meet individual needs. May be substituted for activity courses offered during the regular session. Credit, 1 semester hour.

Physical Education S452. **Health Education.** A survey in the field of health education and study of teaching principles involved in the presentation of health work. Credit, 2 semester hours.

Second Term

Physical Education S152. **Beginning Swimming.** Credit, 1 semester hour.

Physical Education S252. **Intermediate Swimming.** Credit, 1 semester hour.

Physical Education S352. **Advanced Swimming.** Life saving may be included, if desired. Credit, 1 semester hour.

Physical Education S110, S210, S310, S410. **General Activities.** A course in tennis which will be arranged to meet individual needs. May be substituted for activity courses offered during the regular session. Credit, 1 semester hour.

PHYSICAL SCIENCE

First Term

Physical Science S101. **Survey in the Physical Sciences.** This course initiates the student into the various fields of the physical sciences with a view to having her cultivate an appreciation of the natural phenomena with which she is in daily contact. Physical principles rather than factual information are stressed. Identical with first semester's work of the regular session. Credit, 3 semester hours.

Physical Science S111. **General Chemistry.** This course embraces a study of the common elements and their related compounds, along with fundamental chemical laws, theories, etc. Identical with first semester's work of the regular session. Credit, 3 semester hours.

Physical Science S231. **Organic Chemistry.** A course in organic chemistry for students with a major in home economics. Identical with first semester's work of the regular session. Credit, 3 semester hours.

Physical Science S301. **General Physics.** A course in general physics involving a study of the laws of machines, gravitation, electricity, etc. Identical with first semester's work of the regular session. Credit, 3 semester hours.

Physical Science S340. **Physics.** An elementary course in general physics with emphasis on the practical application of these principles to home appliances. This course is designed for students with a major in home economics. Credit, 3 semester hours.

Second Term

Physical Science S102. **Survey in the Physical Sciences.** A continuation of Physical Science S101. Credit, 3 semester hours.

Physical Science S112. **General Chemistry.** A continuation of Physical Science S111. Credit, 3 semester hours.

Physical Science S232. **Physiological Chemistry.** A course in physiological chemistry for students with a major in home economics. Credit, 3 semester hours.

Physical Science S302. **General Physics.** A continuation of Physical Science S301. Credit, 3 semester hours.

Physical Science S340. **Physics.** An elementary course in general physics with emphasis on the practical application of these principles to home appliances. This course is designed for students with a major in home economics. Credit, 3 semester hours.
